

Welcome To Our Practice

It is with great pleasure that we welcome you to our dental practice. We want to welcome you to a new dental experience. Dr. Bloom has made a commitment to his profession to provide you with optimal dental care and we will provide you with caring, five-star customer service.

The saying “prevention is the best medicine” is what comprehensive, long-term dental health is all about. Regularly scheduled visits together with diligent home care will ensure you a healthy smile for a lifetime. Communication, trust and mutual understanding are essential to forming lasting relationships. Suggestions, comments and constructive criticism are welcome, as we want to make your experience in our office the best it can possibly be.

Our office is extremely proud of the services we provide for patients. We provide all phases of dentistry from pediatric care to cosmetic smile makeovers to implant dentistry. With dental expertise and the latest technology – digital x-rays (reducing radiation exposure 90% compared to film), intra-oral cameras (allowing the patient to see their teeth from the dentist’s point of view), soothing chairs and video monitors (where children can bring in their favorite DVD or view one of ours while being treated), we can help you maintain and/or improve your smile for life. Let your smile be a sign of happiness and good health.

For your convenience we have enclosed a health questionnaire and other information, including a map and directions to our office. If you have any questions, please feel free to call our office at 847-998-0155.

Please bring the enclosed forms (filled out) with you to your scheduled appointment time.

We look forward to meeting you and serving your dental needs now and in the future.
